A number of sureties were submitted, but the court said that, being without personal knowledge of the signatories, he would accept them only after they had received the indorsement of W. S. Mc-Cornick or L. S. Hills.

Last evening a bond was perfected and Nelson is free to pursue his business affairs as usual.

A. B. Irvine, a member of the firm of Wedgwood, Thurman & Irvine, was retained as counsel for Nelson. Naturally, Mr. Irvine declined to discuss the case of his client at this time. The attorney was busily engaged all of the afternoon in preparing the bond and taking other preliminary steps.

so far as I know, no grand jury in the country-especially in the west-has devoted so much time and energy to probing this case.

# What the Indictment Says.

There are six counts in the indict-ment. Each of the series of three of them is identical, save that the amount

One set of the series refers to Nelson and his connection with the Utah National, and the other his connection with the Jordan State bank. As a sample of the phraseology that is used in the indictment, the sixth count is herewith given:

Mr. Nelson has told all he knew about the case, which is not a great deal, to the grand jury, and is ready to repeat it when the time comes."

What Judge Booth Says.

The result of the grand jury investigation pleases H. E. Booth, the United States district attorney.

He told about how hard they had all worked, and how the grand jury had followed blind leads, only to abandon them when they saw they were mere strings of straw; and how there were many witnesses examined whose names had never appeared in the papers—"And some that did appear?" was suggested.

One of the interesting features of the indictment of A. W. Nelson of Bingham Junction for the theft of \$106,000 from the Utah National bank was the reconciliation of W. W. ## PRESIDENT ON PICNIC.

Time in the Woods.

Oyster Bay, June 30.—President Roosevelt and his family today enjoyed a real old fashioned picnic in the woods at the water's edge on Lloyd Neck, a peninsula on the north shere of Long Island sound.

Early in the day the president, with one of his boys, started in a rowboat from the Spring harbor side of his grounds and rowed the entire distance, about three miles, to the picnic grounds.

Mrs. Roosevelt and the rest of the children went around Cove Neck in the yacht Sylph, taking along provisions and utensils for a day's outing. It always is with great pleasure that the president goes on these outings, and the children and Mrs. Roosevelt enjoy them equally as well.

Some excitement was caused here by the fact that the local agent of the express company received a shipment of several thousand dollars this morning. This money was forwarded by the Mexican government to pay the monthly sal- arise of the gendarmes located south of here, and as the shipments come regular-live each month it was thought the revolutionists might try to secure it. The money was turned over to the Mexican officials, and so far as known they were not molested.

WILLIAM WINTER, DRAMATIC CRITIC, IN THE WRECK.

Los Angeles, June 30 .- A claim is made by officials of the Santa Fe railroad today that the wreck of the California. Limited near Winslow, Ariz., Sunday night, was deliberately brought about by the burning of the bridge, whose absence caused three deaths and resulted in injury to over thirty people. H. J. Franklin, general coast claim agent for the company, declared that reports from his subordinates establish a clear case of train wrecking. It is said that the bridge was so located that fire could not have been started by a passing engine; that a train had passed two hours before the wreck, and that in the meanwhile a track walker had found the bridge in good condition. Two men are said to have been seen running away as the engine crashed into the ditch. It is now declared that the wreck of a freight train in the same vicinity on June 20 was accomplished by an obstruction placed on the track, evi-dently in the mistaken belief that the next train due was the California Lim-
